

LIGHTHOUSE

Behavioral Wellness Centers

We ask that you bring a few things with you to your first appointment. Here is a checklist with everything you will need. If you do not have an item on the list or unsure, we will be glad to assist you.

Valid form of Identification

A valid form would be a driver's license, state-issued id, passport, or other government identification.

Social Security Card

A copy will be made for our records. All information will be secure and confidential.

Private Insurance Information (if applicable)

We encourage you to use your private insurance if it is covered in your policy. If you do not have insurance, we can still help you.

Proof of Income

Your last two check stubs are often used to verify employment. A letter from the social security office will be accepted if you are on social security. We will need a letter of unemployment if you are currently unemployed.
